

# **COVID19 – A CHINESE FLU**

**STATISTICS AND CONSPIRACY THEORIES**

**THE YEAR WORLD STOOD STILL**

**AUTHOR: RUDOLPH D'SOUZA**

Date: 31/October/2020

**Summary:** This Article is a collection of messages circulating over the social media for last 6 months. It shows how social media is used to spread fake news / information without any valid grounds or proofs to support their claims, and read, believe and act. Most of the time these fake news are spread by vested interests

**Key Findings:** Those who spread these conspiracy theories have vested interest in covid19 pandemic. Some are doing for fun, and others just want to promote their ideology or products, but unsuspected social media reader believes it and panic.

**Methodology:** Information for this report is sourced from various secondary sources, social media posts and various news publications, testimonies, survey statistics etc.

**Introduction:** Analysis report on COVID19 address the following questions: How Social media spreads false information even though it is from an unverified source and creates panic among general public. COVID-19 also termed Coronavirus, is an infectious disease which originated in China's Wuhan city in December last year and so President Donald Trump called it Kungu fu, Chinese flu, Chinese virus etc.

All infected with COVID-19 will experience mild to moderate symptoms of illness, mostly breathing difficulties and recover without special treatment.

COVID-19 virus is transmitted through droplets generated when an infected person coughs, sneezes and these droplets contaminate surface around infected person. You can be infected by breathing in the virus if you come in contact with someone who has COVID-19 or by touching a contaminated surface and then touching your eyes, nose or mouth with the same hand. This study article / report is based on collection of statistics pertaining to total infection from worldometer online site, social media posts and reference from other study reports.

## STATISTICS

Statistics from 1<sup>st</sup> April 2020. Infection status as on 1<sup>st</sup> of every month of 25 most infected countries of the world.

# **THESE ARE COLLECTION OF MESSAGES CIRCULATING OVER THE INTERNET ABOUT CORONA PENDEMIC**

## **POSTED AS RECEIVED WITHOUT GRAMMER OR SPELL CHECK**

1).

Back in 90s it was almost certain that Japan will overtake US as number 1 economy. Then a series of things happened and Japan had a lost decade. The aging population, zero immigration and low birth rate ensured Japan never came back as a challenger to US

2019. It was almost certain China will overtake US. The belt and road project, huge reserves of US T bills, natural resources, sovereign govt in their pockets, and a strong military - China had everything going for it.

Every conflict that the world saw, never happened in China. Factories ran well, labour issues weren't there, labour laws didn't exist, supply chain worked well, govt supported debt. It was a fairytale!

Then corona happened. 300 million people are locked down. All SME are shut. Employees are on furlough. Credit card is the sole source of living. The global supply chain is in shambles. Over \$3T of market cap has been wiped out. And this is just the start.

Every company with a supply chain in China will now have a back up option in future. Vietnam, Cambodia, India, Bangladesh will pick portions.

But this is not the end of bad news. Chinese tourist spent over \$250B last year. That funded several cities in Europe, Cruise ships, airlines, hotels, Guides. All of it will vanish this year and slowdown severely for next 3-4yrs.

This is a global slowdown with a high chance of China dragging the world into recession.

Probably China will age before it becomes bigger than US

Contrary to what people think, Corona maybe a weapons grade virus created and released by the US. US is capable of playing such dirty games, it has shown in the past too....

---

2).

### **Unicef**

The corona virus is large in size with a cell diameter of 400-500 micro, so any mask prevents its entry so there is no need to exploit pharmacists to trade with muzzles.

The virus does not settle in the air, but on the ground, so it is not transmitted by the air.

The corona virus, when it falls on a metal surface, will live for 12 hours, so washing hands with soap and water well will do the trick.

Corona virus when it falls on fabrics stays for 9 hours so washing clothes or exposing them to the sun for two hours is enough for the purpose of killing him.

The virus lives on the hands for 10 minutes so putting the alcohol sanitizer in the pocket is enough for the purpose of prevention.

If the virus is exposed to a temperature of 26-27°C, it will be killed, it does not live in hot areas. Also drinking hot water and exposure to the sun is good enough.

Stay away from ice cream and cold food is important.

Gargling with warm water and salt kills tonsils and prevents them from leaking into the lungs.

Adhering to these instructions is sufficient to prevent the virus.

#### **Italy asking the world to listen and react before it's too late:**

A letter from Italy,  
peace for all,

We live in Italy - Milan,

I'm going to share with you and explain to you, "How is life here in Milan" during these difficult days and how do I think you should learn from the mistakes and their consequences that we live here.

We are currently in quarantine. We don't take to the streets, the police are in constant motion and arrest anyone outside his home.

Everything is closed! ... business, malls, stores, all streets without movement.

Feeling of the end of the world !!

Italy, the country of living life, is transformed from one moment to the next as if it were a dark country of war.

It is a fact that I never thought I would ever live!

People are confused, sad, anxious and helpless, and often do not understand how this reality was imposed on them and when this whole nightmare will end.

The big mistake was that at the start of the first hit people continued to lead their lives as usual and took to the streets for work, entertainment and feeling like a vacation period, so gatherings with friends and banquets abound.

Everyone was wrong and so were you!

I beg you, be careful, this is neither a laugh nor a joke.

Protect your loved ones, your parents, and your grandparents! The disease is dangerous for them.

About 200 people die here every day, not because medicine in Milan is not good (it's one of the best in the world), but rather because there are no places for everyone!

Doctors choose who will die! This is only because of the silliness of the citizens at the beginning, who decided to continue their lives as usual, regardless of the new situation!

Please, learn from the mistakes, we are a small country that could end up with a great tragedy.

Listen well now ,, ??

Don't go out into crowded places.

Try not to eat in public places.

Stay longer at home during this time!

Listen to the Ministry of Health guidelines (don't play it!).

Talk about a meter away from each person, do not come close, do not cuddle or accept.

Get a complementary and preventive treatment and learn from others' mistakes.

We recommend that you take vitamin C to boost your immune system.

Helping professionals prevent the spread of the epidemic ...

In Italy, the entire country is isolated, meaning 60 million people in quarantine !!

This would have been prevented if people had heard the instructions from the beginning.

Take care of yourself and the life of the one you love ??

Share the message to all people.

---

4).

**Dean Koontz's** book **The Eyes Of Darkness** is getting a lot of renewed attention now, despite being nearly 40 years old. The book mentions a deadly virus called the "Wuhan 400," which he described as a "severe pneumonia-like illness" that spreads attacking "the lungs and bronchial tubes" and "resisting all known treatments."

He's not the only person who seemed to have predicted the virus — or just had a good imagination to come up something which happened to partially overlap with actual events. So-called "psychic" Sylvia Browne supposedly predicted something like the coronavirus in her **End Of Days** book that, apparently, some of the Kardashians have read and recently quoted.

new biological weapon in a decade. They call the stuff '**Wuhan-400**' because it was developed at their RDNA labs outside of the city of Wuhan, and it was the four-hundredth viable strain of man-made microorganisms created at that research center. "Wuhan-400 is a perfect weapon. It afflicts only human beings. No other living creature can carry it. And like syphilis, Wuhan-400 can't survive outside a living human body for longer than a minute, which means it can't permanently contaminate objects or entire places the way anthrax and other virulent microorganisms can. And when the host expires, the Wuhan-400 within him perishes a short while later, as soon as the temperature of the corpse drops below eighty-six degrees Fahrenheit. Do you see the advantage of all this?"

Tina was too busy with Danny to think about what Carl Dombey had said, but Elliot knew what the scientist meant. "If I understand you, the Chinese could use Wuhan-400 to wipe out a city or a country, and then there wouldn't be any need for them to conduct a tricky and expensive decontamination before they moved in and took over the conquered territory."

"Exactly," Dombey said. "And Wuhan-400 has other, equally important advantages over most biological agents. For one thing, you can become an infectious carrier only four hours after coming into contact with the virus. That's an incredibly short incubation period. Once infected, no one lives more than twenty-four hours. Most die in twelve. It's worse than the Ebola virus in Africa—ininitely worse. Wuhan-400's kill-rate is one hundred percent. No one is supposed to survive. The Chinese tested it on God knows how many political prisoners. They were never able to find an antibody or an antibiotic that was effective against it. The virus migrates to the brain stem, and there it begins secreting a toxin that literally eats away brain tissue like battery acid dissolving cheesecloth. It destroys the part of the brain that controls all of the body's automatic functions. The

5).

### **How to dominate the world quickly?**

#### **THE GREAT CHINESE STAGE**

1. Create a virus and the antidote.
2. Spread the virus.
3. A demonstration of efficiency, building hospitals in a few days. After all, you were already prepared, with the projects, ordering the equipment, hiring the labor, the water and sewage network, the prefabricated building materials and stocked in an impressive volume.
4. Cause chaos in the world, starting with Europe.
5. Quickly plaster the economy of dozens of countries.
6. Stop production lines in factories in other countries.
7. Cause stock markets to fall and buy companies at a bargain price.
8. Quickly control the epidemic in your country. After all, you were already prepared.
9. Lower the price of commodities, including the price of oil you buy on a large scale.
10. Get back to producing quickly while the world is at a standstill. Buy what you negotiated cheaply in the crisis and sell more expensive what is lacking in countries that have paralyzed their industries.

After all, you read more Confucius than Karl Marx.

PS: Before laughing, read the book by Chinese colonels Qiao Liang and Wang Xiangsui, from 1999, **“Unrestricted Warfare: China’s master plan to destroy America”**, on Amazon, then we talk. It's all there.

Worth pondering..  
Just Think about this...

How come Russia & North Korea are totally free of Covid-19? Because they are staunch ally of China. Not a single case reported from this 2 countries. On the other hand South Korea / United Kingdom / Italy / Spain and Asia are severely hit. How come Wuhan is suddenly free from the deadly virus?

China will say that their drastic initial measures they took was very stern and Wuhan was locked down to contain the spread to other areas. I am sure they are using the Anti dote of the virus.

Why Beijing was not hit? Why only Wuhan? Kind of interesting to ponder upon.. right? Well ..Wuhan is open for business now. America and all the above mentioned countries are devastated financially. Soon American economy will collapse as planned by China. China knows it CANNOT defeat America militarily as USA is at present

THE MOST POWERFUL country in the world. So use the virus...to cripple the economy and paralyse the nation and its Defense capabilities. I'm sure Nancy Pelosi got a part in this. . to topple Trump. Lately President Trump was always telling of how GREAT American economy was improving in all fronts. The only way to destroy his vision of making AMERICA GREAT AGAIN is to create an economic havoc. Nancy Pelosi was unable to bring down Trump thru impeachment. ....so work along with China to destroy Trump by releasing a virus. Wuhan,s epidemic was a showcase. At the peak of the virus epidemic. ...

China's President Xi Jinping...just wore a simple RM1 facemask to visit those effected areas. As President he should be covered from head to toe.....but it was not the case. He was already injected to resist any harm from the virus....that means a cure was already in place before the virus was released.

Some may ask....Bill Gates already predicted the outbreak in 2015...so the chinese agenda cannot be true. The answer is. ..YES...Bill Gates did predict. .but that prediction is based on a genuine virus outbreak. Now China is also telling that the virus was predicted well in advance. ....so that its agenda would play along well to match that prediction. China,s vision is to control the World economy by buying up stocks now from countries facing the brink of severe ECONOMIC COLLAPSE. Later China will announce that their Medical Researchers have found a cure to destroy the virus. Now China have other countries stocks in their arsenal and these countries will soon be slave to their master...CHINA.

Just Think about it ...

The Doctor Who declared this virus was also Silenced by the Chinese Authorities...

---

6).

### **WELL PLAYED CHINA....**

SCENE 1 : The curtain opens: China becomes ill, enters a "crisis" and paralyzes its trade. The curtain closes.

SCENE II. The curtain opens: The Chinese currency is devalued. They do not do anything. The curtain closes.

SCENE III. The curtain opens:: Due to the lack of trade of companies from Europe and the USA that are based in China, their shares fall 40% of their value.

SCENE IV. The curtain opens:: The world is ill, China buys 30% of the shares of companies in Europe and the US at a very low price. The curtain closes.

SCENE V. The curtain opens: China has controlled the disease and owns companies in Europe and the US. And he decides that these companies stay in China and earn \$ 20,000Billions. The curtain closes. How is the play called?

SCENE VI: Checkmate!

ReAmazing but true

Two videos have passed between yesterday and today that convinced me of something I suspected, but had no basis. It was just my speculation. Now I am convinced that the coronavirus was purposely propagated by the Chinese themselves.

At first they were too prepared. Three weeks after the start of the roll, 14 days and a 12,000-bed hospitals were already under construction. And they really built them in two weeks. Awesome.

Yesterday they announced that they had stopped the epidemic. They appear in videos celebrating, they announce that they even have a vaccine. How could they create it so quickly without having all the genetic information? Well if you are the owner of the formula it is not difficult at all.

And today I just saw a video that explains how Den Xiao Ping gave the west a half stick. Due to the coronavirus, the actions of Western companies in China fell dramatically. China I just hope, when they went down enough they bought them. Now the companies, Created by the USA and Europe in China with all the technology put in by these exchanges and their capital they passed into the hands of China, which is now rising with all that technological potential and will be able to set prices at will to sell everything they need to the West. How are you?

None of this could have happened by chance. China who cared that a few old men died? Fewer old-age pensions to pay, but the loot has been huge. And right now the West is financially defeated, in crisis and stunned by the disease. And without knowing what to do.

### **Masterfully diabolic.**

Adding to this, they are now the single largest owners of US treasury with 1.18 trillion holding surpassing Japan.

An instrument that has seen the most rally

One ? prospective & Analogy

---

7).

### **News out of China is that no new cases of Coronavirus in Wuhan. A great feat!**

But here is a point I am grappling with. When China was suppressing the news about the Novel Coronavirus when an eye doctor was sounding the alarm in December, and virus started to spread, why did not spread to other large population centers of China like Shanghai and Beijing before Wuhan was locked down. It was apparently able to spread to Japan, Korea, US and Italy. But not Shanghai, Beijing, Guangzhou or HongKong!

Can somebody enlighten me as to what happened here? How did Virus know to stay out of all these population centers?

---

8).

### **Breaking News from CNN :-**

**Dr. Li Wenliang**, China's hero doctor who was punished for telling the truth about Corona Virus and later died due to the same disease, had documented casefiles for research purposes and had in the casefiles proposed a cure that would significantly decrease the impact of the COVID - 19 Virus on the human body. The chemical Methylxanthine, Theobromine and Theophylline stimulate compounds that can ward off these virus in a human with atleast an average immune system. Whats more shocking is that these complex words that were so difficult for people in China to understand is actually called Tea in India, YES, our regular Tea has all these chemicals already in it. The main Methylxanthine in tea is the stimulant caffeine. Other Methylxanthines found in tea are two chemically similar compounds, Theobromine and Theophylline. The tea plant creates these chemicals as a way to ward off insects and other animals. Who would have known that all the solution to these virus would be a simple cup of TEA. and that is the reason so many patients in China are being cured. The hospital staff in china has started serving tea to the patients 3 times a day, And the effect is finally in Wuhan "The centre of this Pandemic" has been contained and community transmission has almost stopped.

Please Share this message to your friends and family to make them aware about this blessing in the form of TEA in your kitchen.

---

9).

The following is from Ken's sister Irene, physician, whose daughter is an Asst. Prof in infectious diseases at Johns Hopkins University, quite informative.

From a friend's med school buddy:

In our community chat, here, they sent this excellent summary to avoid contagion ??. I share it with you because it is very clear:

- \* The virus is not a living organism, but a protein molecule (DNA) covered by a protective layer of lipid (fat), which, when absorbed by the cells of the ocular, nasal or buccal mucosa, changes their genetic code. (mutation) and convert them into aggressor and multiplier cells.

- \* Since the virus is not a living organism but a protein molecule, it is not killed, but decays on its own. The disintegration time depends on the temperature, humidity and

type of material where it lies.

- \* The virus is very fragile; the only thing that protects it is a thin outer layer of fat. That is why any soap or detergent is the best remedy, because the foam CUTS the FAT (that is why you have to rub so much: for 20 seconds or more, to make a lot of foam). By dissolving the fat layer, the protein molecule disperses and breaks down on its own.

- \* HEAT melts fat; this is why it is so good to use water above 25 degrees Celsius for washing hands, clothes and everything. In addition, hot water makes more foam and that makes it even more useful.

- \* Alcohol or any mixture with alcohol over 65% DISSOLVES ANY FAT, especially the external lipid layer of the virus.

- \* Any mix with 1 part bleach and 5 parts water directly dissolves the protein, breaks it down from the inside.

- \* Oxygenated water helps long after soap, alcohol and chlorine, because peroxide dissolves the virus protein, but you have to use it pure and it hurts your skin.

- \* NO BACTERICIDE SERVES. The virus is not a living organism like bacteria; they cannot kill what is not alive with antibiotics, but quickly disintegrate its structure with everything said.

- \* NEVER shake used or unused clothing, sheets or cloth. While it is glued to a porous surface, it is very inert and disintegrates only between 3 hours (fabric and porous), 4 hours (copper, because it is naturally antiseptic; and wood, because it removes all the moisture and does not let it peel off and disintegrates), 24 hours (cardboard), 42 hours (metal) and 72 hours (plastic). But if you shake it or use a feather duster, the virus molecules float in the air for up to 3 hours, and can lodge in your nose.

- \* The virus molecules remain very stable in external cold, or artificial as air conditioners in houses and cars. They also need moisture to stay stable, and especially darkness. Therefore, dehumidified, dry, warm and bright environments will degrade it faster.

- \* UV LIGHT on any object that may contain it breaks down the virus protein. For example, to disinfect and reuse a mask is perfect. Be careful, it also breaks down collagen (which is protein) in the skin, eventually causing wrinkles and skin cancer.

- \* The virus CANNOT go through healthy skin.

- \* Vinegar is NOT useful because it does not break down the protective layer of fat.

- \* NO SPIRITS, NOR VODKA, serve. The strongest vodka is 40% alcohol, and you need 65%.

- \* LISTERINE IF IT SERVES! It is 65% alcohol.

- \* The more confined the space, the more concentration of the virus there can be. The more open or naturally ventilated, the less.

- \* This is super said, but you have to wash your hands before and after touching mucosa, food, locks, knobs, switches, remote control, cell phone, watches, computers, desks, TV, etc. And when using the bathroom.

- \* You have to HUMIDIFY HANDS DRY from so much washing them, because the

molecules can hide in the micro cracks. The thicker the moisturizer, the better. \* Also keep your NAILS SHORT so that the virus does not hide there.

From Michele Assaf

---

10).

**Yes, there's actually a St. Corona! And her remains are in Northern Italy**

Corona was only 16, and gave her life to comfort a fellow Christian.

Right in the middle of the Coronavirus pandemic is the city of Anzu, Italy. There is a basilica in Anzu where the relics of St. Victor and St. Corona have been preserved since the 9th century. The word Corona is Latin for crown. Ironically, St. Corona is considered as one of the patron saints of pandemics.\*

The Coronavirus sweeping the globe is also named for “crown.” The Economist explains:

Little noticed by doctors, let alone the public, until the outbreak of SARS (severe acute respiratory syndrome) that began in Guangdong in 2002, the coronavirus family was first recognised by science in the 1960s. Its members got their name because, under the early electron microscopes of the period, their shape seemed reminiscent of a monarch's crown. (It is actually, modern methods show, more like that of an old-fashioned naval mine.) There are now more than 40 recognised members of the family, infecting a range of mammals and birds, including blackbirds, bats and cats. Veterinary virologists know them well because of the diseases they cause in pigs, cattle and poultry.

Little is known about St. Corona, but she and the man she prayed for, St. Victor, are listed in the Roman martyrology and the Hagiography of the Church. There is ambiguity surrounding the dates and locations of St. Victor's and St. Corona's martyrdom. Most sources say it was in Syria, which was under Roman rule. Some say Damascus; others, Antioch. Most agree they were put to death in the year 170 A.D. Most historians agree they died during the reign of Marcus Aurelius and that they were put to death by order of a Roman judge named Sebastian.

The story (legend) tells the tale of a Roman soldier named Victor. The Romans discovered that Victor was a Christian. The soldiers brought Victor before a judge, named Sebastian, who despised Christians. He decided to make an example out of Victor. He was bound to a pillar and summarily whipped until his skin was hanging from his

body, and then Sebastian had his eyes gouged out. Through it all, Victor never denied Christ.

Nearby was a 16-year-old girl name Corona. She was the wife of one of the soldiers, and she was also a Christian. (Corona's husband did not know his wife was a Christian). As Victor was being brutalized, Corona decided she needed to help the slowly dying man. She chose to announce her Christianity to all present and hurried over to where they were torturing Victor. She knelt and began to pray for him, letting him know she was there for him. It did not take very long for the soldiers to bring her too before Sebastian.

Sebastian was livid that this young woman had so disrespected his authority. He immediately had her put in the prison and tortured. Then, he ordered her tied to the tops of two palm trees, which had been pulled down to the ground. At his signal, the ropes holding the trees bent were cut. The trees sprang back away from each other to an upright position. The force was so great that Corona's body was ripped apart. Then Sebastian ordered Victor beheaded.

The remains in the basilica have been there since the 9th century.

In 1943 and again in 1981, they were examined, and the bones are from both a male and female. In the 1981 examination, they discovered cedar pollen, which was a typical plant from the Mediterranean basin during the time in question. Archeologists confirm that this pollen would have been present in Syria and Cyprus.

St. Victor and St. Corona are pre-congregation saints meaning that they were recognized as saints prior to Church canonization processes being standardized. (The first saint canonized by a pope was Ulrich, the bishop of Augsburg, who died in 973. He was canonized by Pope John XV at the Lateran Council of 993. Canonization became the general law of the church under Pope Gregory IX (1227-41)).

St. Corona's feast day, along with St. Victor's, is May 14. We ask both of them to pray for us all that this pandemic subsides.

\* Several readers have asked us about St. Corona being a patron saint to invoke against epidemics. This can be verified in various German-language sources, as this particular aspect of devotion to her is most common in Austria and Bavaria.

Also, her name, in reference to the Latin word for crown, surely refers to her martyrdom, as she received the "**martyr's crown.**" We might say this is similar to St. Veronica, known for wiping Our Lord's face on the Way of the Cross. Veronica, literally, means "true image," a reference to the image of Christ's face that he left on her cloth.

It is good to remember that the saints belong to the Universal Church, and thus the patronages of one or another might vary from one country to another. For example, in many English-speaking countries, if you ask who is the patron of animal lovers, you'll surely hear St. Francis. But if you were to ask that same question in Italy or Spain, you'd hear that St. Anthony Abbot is the patron. See here for our slideshow of the blessing of animals on St. Anthony's day!

Thus, about St. Corona, we can say that Providence truly has given her to us at this time, and that she and surely all the saints, are praying for our world in this dire situation.

---

11).

**CONDITIONS** To be tested for COVID19, you must meet one of the following criteria:

- You have **returned from overseas in the past 14 days or spent time on a cruise ship**, and you **develop respiratory illness, with or without fever**
  - You have **been in close contact with a confirmed COVID-19 case in the past 14 days and you develop respiratory illness, with or without fever**
  - You have **severe community-acquired pneumonia and there is no clear cause** (including patients who have already been hospitalised for this condition)
  - You have a **fever or acute respiratory infection** and you **work in the healthcare or aged/residential care sectors**, or you have spent time in a location that's defined by a state or territory as having an elevated risk of community transmission, or you have spent time at a "high-risk" location where there are two or more linked cases of COVID-19, such as an aged-care home, a remote Aboriginal community, a correctional facility, a boarding school, or a military base (including Navy ships) with live-in accommodation.
- 

12).

## **Working of Corona Virus**

### **Few Basics of Biology**

1. Blood carries oxygen to every organ in body
2. Oxygen carrying capacity is due to **Hemoglobin**
3. In the Lungs - exchanges of Gases i.e Oxygen replaces Co<sub>2</sub>

4. Hemoglobin - is RED due to presence of Iron ( Fe ) molecule which binds with O<sub>2</sub> ( in Lungs ) and Co<sub>2</sub> ( Organs )

### Short Summary

1. COVID-19 produces **RNA** ( Sister of DNA )
  2. RNA synthesis creates protein ( Exa : We are able to perceive color due to light falling on protein and signaling brain )
  3. this protein KICKS out Iron ( Fe ) in the Hemoglobin molecule in blood
  4. In absence of Iron (Fe) the binding with O<sub>2</sub> and Co<sub>2</sub> fails
  5. this leads to situation similar to **SUFFOCATION** - causing bloating of Lungs ( trying to take more air ) and failure of Organs
- 

13).

**Corona Virus & The Tavistock Institute - CLICK HERE FOR VIDEO** : Correction: The Tavistock Institute unofficially began in 1913 in London but was called Wellington House (Before WW1). However they did not officially call themselves The Tavistock Institute until the 1920's. This was after Edward Bernay's successfully ran his propaganda campaign to convince the citizens of the allies to support WW1. I apologize for the confusion when I said that The Tavistock Institute was formed in 1920, which would have made it after WW1.....**WATCH VIDEO FOR MORE**

14).

**CORONA EFFECT** : Few lessons learnt in past few days:

1. United States is no longer the world's leading country.
2. China won the 3rd World War without firing a missile and no one could handle it.
3. Europeans are not as educated as they appear.
4. We can survive vacations without trips to Europe and USA.
5. Rich people are in fact less immune than the poor.

- 
6. Human beings are opportunistic and despicable no matter their socioeconomic position when prices are rising.
  7. No priest, poojari, usthad saved patients.
  8. Humans are the real viruses on the planet.
  9. We can spend Billions of Rupees on poor without red tapism.
  10. Health professionals are worth more than a footballer.
  11. Oil is worthless in a society without consumption.
  12. How animals feel in the zoo.
  13. The planet regenerates quickly without humans into play.
  14. Majority of people can work from home.
  15. We and the kids can survive without junk food.
  16. Prisoners in jails for petty crimes can be released.
  17. Living a hygienic life is not difficult.
  18. Only women are not supposed to know cooking.
  19. There are a lot of good people in the World.
  20. If you build more schools, you have to construct less hospitals.
  21. Media is bullshit.
- 

**15)**

Information from patient who has recovered from Hospital.

Everyday we were there:

1. Took Vit C 1000
2. Vitamin E
3. 10.00 - 11.00 under the sun for 15-20 mins
4. A Egg a day
5. Rest/ get min required 7-8 hours
6. Drink 1.5 ml min water daily and every meal must drink Hot ( not cold).

This is what we did at the Hospital

This is to inform All that PH for virus Corona differs from 5.5 to 8.5

What we did to do to fight and kill the virus is to take more alkaline food at the above PH level:

Some of them are:

- \* Lemon - 9.9 PH
- \* Camphor - 8.2 PH
- \* Avocado - 15,6 PH
- \* Garlic- 13,2 PH
- \* Mango - 8.7 PH
- \* Tangerine- 8.5 PH
- \* Pineapple - 12,7 PH
- \* Dandelion - 22, 7 PH
- \* Orange - 9.2 PH

How do you know you have coronavirus?

1. Scratchy throat
2. Dry throat
3. Dry Cough
4. High temperature
5. Respiratory problem
6. Loss of sense of Smell & Taste

If any of the above occur, quickly take hot water with lemon and drink.

Don't just keep this info to yourselves. Share with family and friends Be Careful.

16).

### **Nissamuddin / Tablighi Jamaat congregation Corona Conspiracy**

As many as 647 Covid-19 positive cases found in 14 states in the last two days are linked to the Tablighi Jamaat congregation, the Union health ministry said on Friday.

Out of the 12 deaths reported in the last 24 hours some are related to the Tablighi Jamaat congregation, Joint Secretary in the health ministry Lav Agarwal said in a media briefing.

The congregation took place early last month(13-15 March) in the national capital's West Nizamuddin area.

This is a BJP promoted conspiracy they have been trying to prove now CORONA is spread across India by Muslims. after Backlash in Delhi riots, and Shaheen Bagh anti-CAA protests, BJP trying hard to regain its image to UN/US and Trump, After Delhi riots MODI and his Government faced criticism from all over the world including Human rights as well as UN, as a result MODI announced social distance on Social media, he wanted emotionally blackmail thousands of his followers, and at last he is be back, showing with Public demand he is active.

Earlier all riots / Godhra killings BJP successfully manipulated but in Delhi riots they failed as now everyone has Mobile cameras and others also shot atrocities by Bhakts, so master mind behind this is Amit shah adopted new strategy, that's Tablighi Jamaat congregation.

Home ministry / foreign ministry and Delhi Police who are under HMO knew there is Tablighi Jamaat congregation, for foreigners they issued visa and MEA was very well aware of it. HMO/Delhi Police knowingly allowed it to happen even in critical time of Corona.

According to media reports, the Delhi Police was ineffective in getting the Markaz area vacated and Home Minister Amit Shah had to seek the assistance of National Security Adviser (NSA) Ajit Doval to do the police's job. What NSA chief has to do with this issue.? that also, what is so critical that Ajit Doval visited at 2AM.

It is strange that the Tablighi Jamaat members who attended the gathering in Delhi were allowed to return to their respective towns without any checks or quarantine, considering the number of positive Covid-19 cases had begun to rise significantly late last month.

Tablighi Jamaat meet at Nizamuddin. The gathering was reportedly attended by more than 3,000 members, including about 800 foreign preachers of the Islamic organisation, The foreign preachers didn't enter India on missionary visas, which would have limited their movement in the country to specific locations. Because they came on tourist visas, tracking their travel itinerary is extremely difficult now. Again question arise if they were in Tourists visa how they allowed to preach ? and after Lockdown how they travelled across the country ?

BJP Govt trying to show all were entered India long ago, if so how they were infected ? Tablighi Jamaat preachers who entered India through international airports, especially since the beginning of 2020.

If 800 foreign preachers enter India months ago then, they cannot hide somewhere with Corona Infection if they were carrying ? that means they were infected in India itself.

17).

Finally FBI arrested a professor from Boston university who was in connection with Chinese university and research lab in Wuhan, and was highly paid by China.....Now it is very close to clear that corona virus is a Bio Attack planned and conducted by China.

- A Chinese expert assures everybody that inhalation of a steam from hot water kills Corona virus 100 percent. Even if the virus entered the Nose, throat or Lungs. Corona Virus can not stand the hot water steam...

<https://mynation.net/tips/corona/> Better one i wrote on 28th march that, Inhale Hairdryer air to kill CORONA virus effectively and also Home Remedies for Cold

**PLEASE CIRCULATE THIS INFORMATION TO ALL YOUR FAMILY MEMBERS AND FRIENDS.**

---

18).

Suddenly, we slept in one world and woke up in another. Disney has no more magic and Paris is no longer romantic.

Suddenly, in New York everyone sleeps. And the Great Wall of China is no longer a fortress.

Suddenly, hugs and kisses become weapons. Holding hands and walking the parks become outlawed.

Suddenly, not visiting aging parents and grandparents becomes an “act of love”.

Suddenly, our bombs and machine guns, our tanks and artilleries begin to gather dust.

Suddenly, we realized that power is with God alone. And that money has no value when it can’t even buy you toilet paper.

Suddenly, we have been put back in our place by the hands of the universe.

And we’ve been made aware how vulnerably “human” we truly are, when faced with a microbe so powerfully inhumane.

Stay safe ??

21).

A new study claims to have found an anti-parasitic drug that can kill the Coronavirus present in a host cell completely within 48 hours. As per the study, there is a “significant reduction” in the virus cells within 24 hours of the using the drug. The best part is, the drug is already available widely throughout the world.

A joint work of Monash Biomedicine Discovery Institute and the Peter Doherty Institute of Infection and Immunity, the study highlights Ivermectin as the drug to stop the COVID-19 virus growing in cell culture. The rate of the results as observed in the study was quite impressive as well.

For those unaware, **Ivermectin** is an FDA-approved anti-parasitic drug that is also proven effective against viruses including HIV, dengue and influenza. It is, however, yet unknown as to how Ivermectin works on the virus. For now, it is assumed that the drug stops the virus from dampening the host cells' ability to fight it.

22).

#### Coronavirus: two vaccines enter human trials

According to the “DRAFT landscape of COVID-19 candidate vaccines” released by the World Health Organization (WHO) on April 4, two vaccines are currently being tested on humans.

This includes a non-replicating viral vector vaccine developed by CanSino Biological Inc. along with the Beijing Institute of Biotechnology. A non-replicating vector vaccine can be developed either using a virus that is killed or a part of the virus. Since it is not a complete virus, it cannot replicate inside the host; but the antigens trigger our immune system to produce antibodies, which help fight the disease in case we contract it in the future.

According to the Chinese Clinical Trial Registry, men and women between the ages of 18 and 60 were recruited and tests are being conducted on three groups of 36 participants each. Three dosages are being tested — low, medium and high.

The second is a messenger RNA vaccine developed by Moderna and National Institute of Allergy and Infectious Diseases. In RNA vaccines, the messenger RNA from the pathogen is used. The messenger RNA gets translated into antigenic protein recognised by our immune cells and antibodies are produced. But mRNA is a highly unstable molecule making it difficult to handle. So the mRNA is encapsulated in a small ball of fat or lipid nanoparticle (LNP). This LNP acts as a delivery vehicle that helps the mRNA cross the host cell membrane and once inside the mRNA is released.

According to the website [clinicaltrials.gov](https://clinicaltrials.gov), forty-five subjects (18 to 55 years of age of both sexes) will be enrolled and divided into three groups. They will receive an intramuscular injection on days 1 and 29 in the deltoid muscle.

---

**23).**

Gilead Sciences Inc.'s experimental drug for patients with severe Covid-19 infections showed promise in an early analysis, raising tentative hope that the first treatment for the novel virus may be on the horizon.

The report published in the New England Journal of Medicine tracked 53 people in the U.S., Europe and Canada who needed respiratory support, with about half receiving mechanical ventilation and four on a heart-lung by-pass machine. Eight additional patients were left out of the analysis: one due to a dosing error and seven because no information was available on how they fared.

All received remdesivir for up to 10 days on a compassionate use basis, a program that allows people to use unapproved medicines when no other treatment options are available. Over 18 days, 68% of the patients improved, with 17 of the 30 patients on mechanical ventilation being able to get off the breathing device. Almost half of the patients studied were ultimately discharged, while 13% died. Mortality was highest among those who were on a ventilator, with 18% of them dying.

---

**24).**

The real pandemic starts the day lockdown ends.

The coronavirus is a crisis of math.

The coronavirus is an easy problem to solve...if we understood exponentials.

Unfortunately, the human mind is incapable of grasping exponentials.

We cannot intuitively perceive how a small number can grow so large in such a small amount of time.

An Indian parable is relevant at this point.

---

A king wanted to reward the inventor of chess and asked him to name his prize. “I want you to fill up the entire chess board with wheat.

One grain of wheat on the first square,

2 grains on the next square, double that on the next square for 4 grains,

8, 16, 32 and thus fill up the entire chess board,” said the inventor.

At first, the king was offended, and thought his paltry request was a joke, but the inventor of chess was serious.

So, the king told his servants to fill up the chess board.

The servants came back and told the king that it couldn’t be done.

They had used up the entire wheat stock of the kingdom. There was no more left to continue to fill the chess board.

Just the last square alone on the board would require 9 trillion grains of wheat.

Just like the king in this story, every world leader has been fooled by a small number of coronavirus cases and the power of exponential growth.

We are accusing China for hiding the exact number of cases.

But the important aspect is that 80,000 cases in two months should have been enough for us to wake up to the scary reality of this exponential growth.

Despite seeing the data, the world leaders did nothing.

Some basic math around the virus:

Starting from the first locally transmitted case in the US on February 26, 15 cases have grown to ~460,000 cases (April 9th) in only 6 weeks, in spite of lockdown measures being taken all over the country.

On April 8, there were 31,000 new cases.

Yesterday, there were 34,000 more new cases. And today, there will be even more.

There is no current indicator that the virus’s exponential growth will stop.

Our current lockdown measures have slowed the rate of this exponential growth. But due to the nature of exponents, decreasing the rate of exponential growth still leaves you growing exponentially, and only marginally slower.

Exponential growth can only stop if there are no more people left for the virus to infect in its environment.

There is a ~1% mortality rate for the virus in the best circumstances. Assuming our health care system can handle the influx of new cases (flatten the curve), if every US citizen got coronavirus, ~3 million people would die.

Stopping exponential growth without infecting the full population requires cutting off the supply of healthy individuals that can be infected.

The incubation period of the virus is ~14 days.

If everyone is in complete isolation for 4–6 weeks, the virus will disappear.

Complete isolation means no going out for any reason at all.

No walks,

no groceries,

no “essential” businesses. This has been proven successful in China.

This is effective because those within a household where no one is infected will have no means of contracting the virus without outside contact.

For an individual who may have the virus, they will only be able to pass it to those quarantined with them, with 4–6 weeks as enough time for the virus to pass through the whole household.

Those who end up at the hospital would only return to their homes once they are cleared of the virus.

We have two choices:

Everyone in the world gets the virus, so that it can no longer spread. The body count would be horrific.

The whole world synchronously goes into a complete lockdown for 4–6 weeks. The effects on the global economy would be horrific.

Every nation is eagerly awaiting to lift its lockdown as soon as there are fewer cases.

But when 15 cases become 460,000 in 6 weeks, how is it ok to lift a lockdown when we are down to, say, “only 100 new cases” in a given day?

Once again, our human mind is incapable of thinking in exponentials.

We will not have learned from history — a history that occurred just two months ago.

The real pandemic will start the day we start lifting the lockdown.

Every country or state has announced a date at which lockdown will be lifted.

They should instead declare that they will lift the lockdown the day the number of new cases has been zero for the past two weeks. Period.

We are setting ourselves up for a cycle of partial lockdown for weeks, followed by a lift, then a lock down again when the spread picks up — over and over again, for the better part of the year, at best.

In the process, we will lose millions of lives, as well as our economies.

If we take a hit of some percentage loss in the world GDP by locking down the entire world synchronously, we could save millions of lives.

Or we do nothing and millions get killed with a loss in GDP anyway.

The reality is that we will lose lives as well as the economy — just because we didn't bother to understand the math.

We have a choice to make:

do we want to throw money at the problem,  
or  
throw bodies at the problem?

---

25).

CORONA IS AN ALIEN CONSPIRACY

**UFO sighted over USA on 28/04/2020**

The lethal wave of SPANISH FLU influenza in 1918-19... was first reported on the same day in Boston and Bombay, both cities thousands of miles apart of the globe and no flight will travel in day to infect unless otherwise done by a ALIEN UFO, The 40,000 tonnes of cometary debris reaching the Earth annually and all will not be burnt out when entering earth stratosphere, some will fall on earth as meteorite rock and bacteria will survive even its heated, and more bacterial/viral particles would be available annually for descent through the troposphere raindrops. The amino acid content of carbonaceous chondrites, synthesised abiotically, is largely irrelevant to panspermia. It is the volatile component of cometary outflows that carry biological particles and biological molecules. The molecules within cometary interiors is concerned, apart from an occupation of the interior of comets by abiologic amino acids contained in silicates, the chance of amino acids combining at random into a protein molecule - the basic molecule of life - is 1 in  $10^{130}$  - a process likely to require favourable conditions (temperatures under 150 degrees celsius) as may exist on some planets, and viruses, which contain either DNA or RNA (but never both) can not multiply on their own except as parasites within living organisms.

Every day, more than 800 million viruses are deposited per square metre above the planetary boundary layer. This news comes from an international team who sampled the air weekly or bi-weekly from two mountain sites 3 km high in southern Spain. They found that bacteria and viruses above the atmospheric boundary layer are more abundant, can persist for longer and can travel farther than previously known. They observe that the particles come from the ocean or from deserts, with transport variously affected by weather. And they remark, Rather than being a negative consequence, this deposition provides a seed bank that should allow ecosystems to rapidly adapt to environmental changes. The same atmospheric dispersal of viruses and bacteria could also facilitate panspermia from beyond Earth.

We the human are the alien designed experimental guinea pigs, time to time to test our adaptability they bombard with bacterial/viral particles and also to control human growth and only selective to live as per their design, or give us a sign of our life is their hands, the human creators. GODs. those who survive such influenza having modified DNA which resistance to certain kind of bacteria, that to test human species as per alien design.

---

26).

Black people are more than four times more likely to die from Covid-19 than white people,

According to stark official figures exposing a dramatic divergence in the impact of the coronavirus pandemic in England and Wales.

The Office of National Statistics found that the difference in the virus's impact was caused not only by pre-existing differences in communities' wealth, health, education and living arrangements.

It discovered that after taking into account age, measures of self-reported health and disability and other socio-demographic characteristics, black people were still almost twice as likely as white people to die a Covid-19-related death.

**Indian, Bangladeshi and Pakistani males** were 1.8 times more likely to die from Covid-19 than white males, after other pre-existing factors had been accounted for, and females from those ethnic groups were 1.6 times more likely to die from the virus than their white counterparts.

The risk of Covid-19 death for people from Chinese and mixed ethnic groups was found to be similar to that for white people.

"These results show that the difference between ethnic groups in Covid-19 mortality is partly a result of socio-economic disadvantage and other circumstances, but a remaining part of the difference has not yet been explained," the ONS said.

---

27).

Breakthrough on COVID-19 Vaccine

Defence Minister of Israel, Naftali Bennett declared that the Israel Institute for Biological Research (IIBR) developed an antibody to neutralise the virus responsible for COVID-19. It can attack the virus within the bodies of the infected.

The institute started testing the antibody on rodents last month. Besides, the second research team, MigVax has completed the first phase of developing the COVID-19 vaccine and has secured USD 12 million investment. However, he did not specify of

conducting any trials on humans. Bennett appreciated the efforts for this terrific development.

### **First COVID-19 Vaccine Production Facility in Israel**

A spokesperson for the Yeruham local council confirmed that Israel plans to establish the first COVID-19 vaccine production facility. IIBR, in collaboration with the international pharmaceutical company, will set up the facility in Yeruham to manufacture tens of millions of vaccine units. Mass production to ensure self-sufficiency in times of pandemic in the country.

### **Italy too Claims of Developing COVID-19 Vaccine**

Rome's infectious-disease Spallanzani Hospital stated that they are on an advance stage of checking vaccine on humans. Also, Italian researchers have described the results beyond expectations. The vaccine testing is on five candidates with a brief electrical impulse that helps the vaccine break into the cells, activating the immune system.

---

28).

### **The COVID-19 Conspiracy plot thickens**

1. **Remdesivir** developed by **Gilead Sciences**, has recently been authorised by the US FDA for emergency treatment for severe COVID-19.
2. Interestingly, China holds the patent to Remdesivir through an agreement with Gilead's drug patent sharing subsidiary company called UNITAID. A coincidence: UNITAID happens to have a bio research office near Wuhan, China.
3. Any guesses who are the main financial contributors in **UNITAID**..??  
Billionaires- **Bill & Melinda Gates & George Soros**. The **WHO**, interestingly, also enjoys a permanent seat on the Board of UNITAID. Any guesses who represents the WHO interest on the company board..??  
**Mr. Ren Minghui** - former Director General of Health and Family Committee of the people's republic of CHINA, elevated to the WHO under China's bidding !! Bill Gates was recently very critical of the US government's freezing of **WHO funding**. What was Bill's motivation in doing that?
4. **GILEAD SCIENCE** was a major financial donor to **Hillary Clintons** political campaign. This was a payback for her support in lobbying the Obama administration in 2014, to extend a grant of US 3.7 million dollars to the **WUHAN Institute of Virology**,

US tax payer money used to sponsor a lab development in China. This grant was signed off by none other than **Dr. Anthony Fauci** who was sacked by Donald Trump recently as advisor to His administration on COVID19.

5. A strange coincidence: On Dec 2, 2014 President **BARACK OBAMA** warned his citizens in USA to be prepared for an air borne pandemic.. wonder how he knew about this... a premonition?

There seems to be a well planned collusion for the past 5 yrs at the highest levels in the development of the Virus and the subsequent COVID19 vaccine. This seems to be an deliberate enterprise created with an ultimate motivation of making billions of dollars in profits at the cost of only losing a mere million human lives !!

GILEAD SCIENCE also filed a patent with the **Indian government** in 2017 for Remdesivir and it was approved by the Indian government recently in Feb 2020. Strange coincidence: prior to the filing of the patent in India, Bill Gates visited India and also met up with the Indian administration.

Also strange that this same Gilead had created & sold the formulation for **SARS** cure **Oseltamivir** (Tamiflu) in 2003 to **Roche** and they were ready with Tamiflu once SARS spread to China. These people are the first to pooh pooh any home remedies that may work effectively for diseases.

---

29).

### **Breaking News:**

Major cause of death in Covid-19 is Thrombosis, Not Pneumonia!

It seems that the disease is being attacked wrongly worldwide?

Thanks to autopsies performed by the Italians ... it has been shown that it is not pneumonia ... but it is: **disseminated intravascular coagulation** (thrombosis).

Therefore, the way to fight it is with antibiotics, antivirals, anti-inflammatories and anticoagulants.

The protocols are being changed here since noon!

According to valuable information from Italian pathologists, ventilators and intensive care units were never needed.

If this is true for all cases, we are about to resolve it earlier than expected.

Important and new about Coranovirus:

Around the world, COVID-19 is being attacked wrongly due to a serious pathophysiological diagnosis error.

The impressive case of a Mexican family in the United States who claimed they were cured with a home remedy was documented:

***three 500 mg aspirins dissolved in lemon juice boiled with honey, taken hot.***

The next day they woke up as if nothing had happened to them!

Well, the scientific information that follows proves they are right!

This information was released by a medical researcher from Italy:

Thanks to 50 autopsies performed on patients who died of COVID-19, Italian pathologists have discovered that IT IS NOT PNEUMONIA, strictly speaking, because the virus does not only kill pneumocytes of this type, but uses an inflammatory storm to create an endothelial vascular thrombosis.

As in disseminated intravascular coagulation, the lung is the most affected because it is the most inflamed, but there is also a heart attack, stroke and many other thromboembolic diseases.

In fact, the protocols left antiviral therapies useless and focused on anti-inflammatory and anti-clotting therapies.

These therapies should be done immediately, even at home, in which the treatment of patients responds very well.

The later performed less effective.

In resuscitation, they are almost useless.

If the Chinese had denounced it, they would have invested in home therapy, not intensive care!

**DISSEMINATED INTRAVASCULAR COAGULATION (THROMBOSIS):**

So, the way to fight it is with antibiotics, anti-inflammatories and anticoagulants.

An Italian pathologist reports that the hospital in Bergamo did a total of 50 autopsies and one in Milan, 20, that is, the Italian series is the highest in the world, the Chinese did only 3, which seems to fully confirm the information.

Previously, in a nutshell, the disease is determined by a disseminated intravascular coagulation triggered by the virus; therefore, it is not pneumonia but pulmonary thrombosis, a major diagnostic error.

We doubled the number of resuscitation places in the ICU, with unnecessary exorbitant costs.

In retrospect, we have to rethink those chest X-rays that were discussed a month ago and were given as interstitial pneumonia; in fact, it may be entirely consistent with disseminated intravascular coagulation.

Treatment in ICUs is useless if thromboembolism is not resolved first. If we ventilate a lung where blood does not circulate, it is useless, in fact, nine (9) patients out of ten (10) die.

Because the problem is cardiovascular, not respiratory.

It is venous microthrombosis, not pneumonia, that determines mortality.

Why thrombi are formed?

Because inflammation, according to the literature, induces thrombosis through a complex but well-known pathophysiological mechanism.

Unfortunately what the scientific literature said, especially Chinese, until mid-March was that anti-inflammatory drugs should not be used.

Now, the therapy being used in Italy is with anti-inflammatories and antibiotics, as in influenza, and the number of hospitalized patients has been reduced.

Many deaths, even in their 40s, had a history of fever for 10 to 15 days, which were not treated properly.

The inflammation did a great deal of tissue damage and created ground for thrombus formation, because the main problem is not the virus, but the immune hyperreaction that

destroys the cell where the virus is installed. In fact, patients with rheumatoid arthritis have never needed to be admitted to the ICU because they are on corticosteroid therapy, which is a great anti-inflammatory.

This is the main reason why hospitalizations in Italy are decreasing and becoming a treatable disease at home. By treating her well at home, not only is hospitalization avoided, but also the risk of thrombosis.

It was not easy to understand, because the signs of microembolism disappeared!

With this important discovery, it is possible to return to normal life and open closed deals due to the quarantine, not immediately, but it is time to publish this data, so that the health authorities of each country make their respective analysis of this information and prevent further deaths. useless!

The vaccine may come later.

Now we can wait.

In Italy, as of today, protocols are changing.

According to valuable information from Italian pathologists, ventilators and intensive care units are not necessary.

Therefore, we need to rethink investments to properly deal with this disease.

Não há (Translation by automatic device).

---

**30).**

## **WHAT IT TAKES TO INFECT**

To successfully infect you, the virus needs a dose of: ~1000 viral particles (vp)

The typical environmental spread of activities:

Breath: ~20 vp/minute

Speaking: ~200 vp/minute

Cough: ~200 million vp (enough of these may remain in air for hours in a poorly ventilated environment)

Sneeze: ~200 million vp

## FORMULA

Successful infection = Exposure to Virus \* Time

## SCENARIO

- \* Being in vicinity of someone (with 6 ft distancing): Low risk if limit to less than 45 minutes
- \* Talking to someone face to face (with mask): Low risk if limit to less than 4 minutes
- \* Someone passing you walking/jogging/cycling: Low risk
- \* Well-ventilated spaces, with distancing: Low risk (limit duration)
- \* Grocery shopping: Medium risk (can reduce to low by limiting time and following hygiene)
- \* Indoor spaces: High risk
- \* Public Bathrooms/Common areas: High fomite/surface transfer risk
- \* Restaurants: High risk (can reduce to Medium risk by sitting outdoors with distancing and surface touch awareness)
- \* Workplaces/Schools (even with social distancing): Very high risk, including high fomite transfer risk
- \* Parties/Weddings: Very high risk
- \* Business networking/conferences: Very high risk
- \* Arenas/Concerts/Cinemas: Very high risk

## RISK FACTORS

The bottom line factors you can use to calculate your risk are:

- indoors vs outdoors
- narrow spaces vs large, ventilated spaces
- high people density vs low density
- longer exposure vs brief exposure

The risks will be higher for former scenarios.

---

31).

### TATA Covid Medical kit Required at home:

1. Paracetamol
2. Betadine for mouthwash and gargle
3. Vitamin C and D3
5. B complex
6. Vapour+ capsules for steam

7. Oximeter
8. Oxygen cylinder (for emergency only)
9. arogya Setu app
10. Breathing Exercises

Covid Three stages:

1. Covid only in nose - recovery time is half a day. (Steam inhaling), vitamin C. Usually no fever. Asymptomatic.
2. Covid in throat - sore throat, recovery time 1 day (hot water gargle, warm water to drink, if temp then paracetamol. Vitamin C, B complex. If severe then antibiotic.
3. Covid in lungs- coughing and breathlessness 4 to 5 days. (Vitamin C, B complex, hot water gargle, oximeter, paracetamol, cylinder if severe, lot of liquid required, deep breathing exercise.

Stage when to approach hospital:

Monitor the oxygen level. If it goes near 43 (normal 98-100) then you need oxygen cylinder. If available at home, then no hospital else admit.

Stay healthy, Stay Safe!

Please fwd to your contacts in India. You never know who it may help.

Tata Group has started good initiative, they are providing free doctors consultation online through chats. This facility is started for you so that you need not to go out for doctors and you will be safe at home.

Below is the link, I request everyone to take benefit of this facility.

### **Australian Professor: Ivermectin 'Amazingly Successful' in Killing Coronavirus**

An Australian drug known as Ivermectin, which is already in use throughout the world to treat parasitic conditions, is showing great results in killing coronavirus in studies involving patients, according to Sky News.

"Because I'm involved in developing these in the U.S. where all the patients are, there are a number of studies that are amazingly successful. We're talking close to 100%. In fact, we haven't seen a result yet under 100%. It looks like corona is very simple to kill," Professor Thomas Borody, medical director of Australia's Center for Digestive Disease. "It's available as a prescription medication. You wouldn't use it alone ... but you add two other things to it such as doxycycline and zinc."

Ivermectin is already approved by the FDA and is on the World Health Organization's list of model list of essential medicines.

"We had a 14-hospital trial in Bangladesh. We got [cured] 100 out of 100. In China, they tried to reproduce it. They got 60 out of 60 cured ... So I am behind the Ivermectin, doxycycline, zinc treatment because it has very few side effects and is a real killer of coronavirus," Borody said.

Borody said the Ivermectin tablet could cost as little as \$2, which is likely why drugmakers haven't promoted the drug's usage. He also suggested that have a cure for the disease easily would do away with the need for people to be hospitalized, which would make doctors less money.

"There's no huge pharmaceutical company behind it to spend millions of dollars and put people in places to treat," Borody said.

### **US FDA-approved ointment found to treat, kill viral infections including Covid-19**

Scientists associated with the project said the FDA-registered non-prescription over the counter (OTC) ointment has been proven to prevent, treat and kill viral infections including coronavirus.

Washington: A US pharma company has successfully tested a Food and Drug Administration-approved over the counter ointment as the first line of defence against the deadly coronavirus that has so far killed over eight lakh people globally.

Scientists associated with the project said the FDA-registered non-prescription over the counter (OTC) ointment has been proven to prevent, treat and kill viral infections including coronavirus.

“As per the lab report states, no infectious virus was detected after 30 seconds of T3X treatment,” the pharma company said in a statement.

“We believe this will be a breakthrough that will reduce the likelihood of becoming infected with coronavirus through the nose, which is where most cases are contracted,” said Dr Brian Huber, CEO and founder of Advanced Penetration Technology, which is based out of Indiana and Texas.

“This is a big deal. It is the type of protection a lot of people have been hoping for and could be a first line of defence against the COVID virus. It is a powerful and effective layer of prevention,” Huber said.

**Observation of Efficacy of Ginger powder in Covid 19 positive patients.**  
(Efficacy of GINGER POWDER - Evidence Based Ayurvedic Approach)

**To do the following 3 things:**

1a. Mix Dry GINGER Powder with Jaggery. Keep this on tongue for 5-10 minutes till it mixes with saliva, then swallow.

OR

1b. Take 1 gm (1/4th of tea-spoon) of Dry GINGER Powder on tongue for 5-10 minutes till it mixes with saliva, then swallow.

2. Sniff a pinch of Dry GINGER Powder through each nostril 2-times a day and

3. Take hot water with turmeric powder regularly 3-4 times a day.

All my relatives took Dry GINGER Powder as per Dr. 's suggestion and they started turning Positive reports to Negative.

Please read:

Covid vaccine should be avoided at all cost.

**Message from Robert F. Kennedy, Jr.**

"To all my patients:

I would like to draw your attention urgently to important issues related to the next Covid-19 vaccination. For the first time in the history of vaccination, the so-called last generation mRNA vaccines intervene directly in the genetic material of the patient and therefore alter the individual genetic material, which represents the genetic manipulation, something that was already forbidden and until then considered criminal. This intervention can be compared to genetically manipulated food, which is also highly controversial. Even if the media and politicians currently trivialize the problem and even stupidly call for a new type of vaccine to return to normality, this vaccination is problematic in terms of health, morality and ethics, and also in terms of genetic damage that, unlike the damage caused by previous vaccines, will be irreversible and irreparable.

Dear patients, after an unprecedented mRNA vaccine, you will no longer be able to treat the vaccine symptoms in a complementary way. They will have to live with the consequences, because they can no longer be cured simply by removing toxins from the human body, just as a person with a genetic defect like Down syndrome, Klinefelter syndrome, Turner syndrome, genetic cardiac arrest, hemophilia, cystic fibrosis, Rett syndrome, etc.), because the genetic defect is forever!

This means clearly: if a vaccination symptom develops after an mRNA vaccination, neither I nor any other therapist can help you, because the damage caused by the vaccination will be genetically irreversible. In my opinion, these new vaccines represent a crime against humanity that has never been committed in such a big way in history. As Dr. Wolfgang Wodarg, an experienced doctor, said: In fact, this "promising vaccine" for the vast majority of people should be FORBIDDEN, because it is genetic manipulation! "

The vaccine, developed and endorsed by Anthony Fauci and funded by Bill Gates, uses experimental mRNA technology. Three of the 15 human guinea pigs (20%) experienced a "serious adverse event".

Note: messenger RNA or mRNA is the ribonucleic acid that transfers the genetic code of the DNA of the cell nucleus to a ribosome in the cytoplasm, that is, the one that determines the order in which the amino acids of a protein bind and act as a mold or pattern for the synthesis of that protein.

**Vaccine COVID = IRREVERSIBLE GENETIC DAMAGE - A CRIME AGAINST HUMANITY.**

## **DOES CORONAVIRUS EXIST OR NOT?**

- CLARIFICATION:

### **1. DOES THE VIRUS EXIST?**

Yes, like many other viruses.

### **2. DOES IT HAVE A CURE?**

Yes, if you use the proper medicines and do not leave your health in the hands of corrupt and mercantile health systems.

### **3. ARE THERE GOOD DOCTORS?**

Yes and many, some are acting discreetly giving appropriate treatments, others have been bolder and there are many videos in the networks talking about these treatments, and many have been threatened, disqualified or silenced.

### **4. ARE SCIENTISTS INVESTIGATING?**

Yes, and there is a world union calling for more doctors and scientists called Doctors and Scientists for Truth, to expose the falsity of the treatment they have given to the bug issue.

## **5. IS IT A PANDEMIC?**

No. The WHO changed the term that referred to the pandemic, before the bug was launched in order to end the pandemic.

## **6. IS IT CONTAGIOUS?**

Yes, like all flu.

## **7. IF I CATCH THE VIRUS, DOES IT MEAN THAT I WILL DIE?**

No. If you have symptoms, just take the appropriate medicine from the first day (strengthen the immune system, take anti-inflammatory and anti-influenza) and cure yourself at home.

## **8. CAN IT BE PREVENTED?**

Yes, being as clean as you should be, and maintaining a high immune system. And you also have: Ozone Therapy, Chlorine Dioxide with the preventive protocol.

## **9. ARE THE COUNT OF INFECTED AND DEAD BY THE VIRUS CERTAIN?**

No. In the USA it was discovered that any data, would be in fact 10% of that number, because the causes of deaths were other diseases, and the tests are not reliable, they give false positives.

## **10. ARE ASYMPTOMATIC REAL CASES OF POSITIVES?**

The human being has many microorganisms and viruses in the body and this does not mean that you are a sick or infected person, or that you have the virus, however, the viruses that are supposedly "so aggressive" present some symptoms in the patients

because the body releases alarms from an intruder (fever, headache, vomiting, etc.) and according to Koch's theory the answer is NO.

**11. WAS THE VIRUS CREATED?**

Yes, in a laboratory.

**13. FOR WHAT PURPOSE?**

To be the excuse to restrict freedoms, to change the current economic system to a more oppressive / enslaving, scary, blind flock obedience.

**14. ARE MANY COUNTRIES PART OF THIS MALICIOUS PLAN?**

Yes.

**15. WILL WE GET OUT OF THIS?**

Yes. And all those who contributed to the deaths and the plan will fall, and they will pay for what they did.

**16. MUST I BE AFRAID?**

No. Fear diminishes your immune system and makes you mentally controllable.

**17. IS THE MEDIA PART OF THE PLAN?**

Yes. The owners of the media are accomplices. This is called mind control.

## 18. WHAT SHOULD I DO?

You protect yourself, and if you get sick you already know how to heal yourself at home, or with your trusted doctor who will not commit to the abandonment protocol.

## 19. SHOULD I BE VACCINATED?

No. If you get healthy, vaccines bring chemicals, heavy metals and a series of "bugs" that will only affect your health more in the medium and long term, both physically and mentally. It's your body, and it's your right to decide about it, and about your physical and mental health. Would you trust a vaccine after a virus has been created to exterminate humanity?

## 20. IS THIS A WAR?

Yes.! And we will be victorious! We need to stay together and wake other people up, giving a lot of information.

**"Forced to wear a mask, but not to shut up."**
